

How to Recycle Properly

1

- Check your local recycling center to see what they accept

2

- **Rinse out** the cans and containers you recycle

3

- **Do not recycle in orange bins:**
 - Plastic bags
 - Electronics & Batteries
 - Hoses & Wires
 - Diapers
 - Needles & Sharps
 - Foods & Liquids

4

- **When in doubt, Throw it out!**
If you do not know whether something is recyclable or not, throw it in the trash to not contaminate the rest of the bin.
